4.2-5.1 years	Thursday	2:30-3:30	TBD & Alex Vasallo	\$425.00

The Music Adventures program is an Orff Schulwerk based program.

The curriculum is sequential and progressive with activities that are play-oriented and directed. Theme based materials are used to teach the basic elements of music and movement. Some of the themes are: dinosaurs, outer space, classical music composers, jazz musicians, the rain forest, Greek mythology, and Southeast Asia.

The Music Adventures program starts at 18 months and ends at the end of 1st grade. The classes for 2.6 to 6years old are team-taught by a professional musician and professional dancer and all other classes are taught by a professional musician.

Rhythmic training, ear training, music literacy, and creative movement are the core of the curriculum. Music ensembles for 5 year olds play multi-part compositions as well as improvised solos with pitched and non-pitched percussion. All materials taught are specifically age appropriate and class size is limited, with a teacher to student ratio of no more than 1 - 8 and in most cases no more than 1 - 6. Through the course of the year, different instrumentalists are brought in to demonstrate their respective instruments in an intimate setting for the children.
